*for the love of family*

**We are Matthew & Judith & have recently celebrated our 7th wedding anniversary! Our relationship has grown into a deep love built on trust and respect. That love only grew deeper when Sianna was born with Down Syndrome. We love our little sunshine dearly!**

***As she became older we knew we had lots of room in our hearts for another child to complete our family circle. Our four years of infertility have strengthened us and we are more connected than ever as we begin our adoption journey together.***

***We are very excited to become parents all over again and to share our love, stability and happiness with another child.***

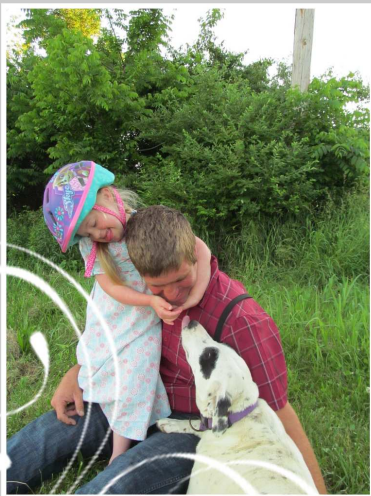

**Our hearts are touched by your sacrificial love as you consider the best for your child's future. May you find peace in the knowledge that the life growing within you will be loved and cherished. We are praying for you and care deeply about you.**

# **My Best Friend**

**Our favorite time of the day is when Daddy comes home! A husky six footer, he is always kind and gentle. We love spending time together. He does a great job providing for us, and treats us with respect.**

# Love of My Life

# Meet Sianna...

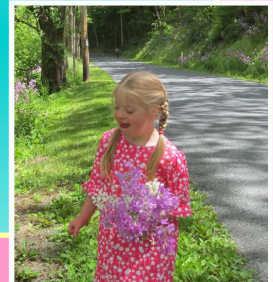

**Sianna is our happy five year old daughter. She loves babies & spends hours playing with her dolls & Barbie. Storytime is a favorite. She brings huge stacks of books for Mama or Daddy to read.**

**Fluffy the kitten & Snoopy the dog are her constant companions and always welcome her attention.**

**Her favorite time of the day is after dinner when we go out to swing.**

**Sianna picks a bouquet of flowers for Mama every day!**

# OUR Sweet HOME

**Matthew built our spacious new four bedroom home that sets on a hilltop in our quiet neighborhood in 2018. Judith especially enjoys the big kitchen where she loves to cook & bake with little hands helping her. On a summer eve, we love to sit on the front porch & watch the mist rise from the valley after a rain shower & the fireflies coming out at dusk. Along with a huge yard, there is a swing set to romp & play on.**
